Da Capo Inventory

Other Da Capo Products · https://dcmfdocs.dacapowebdevelopment.com/doc/dcmf-teachers/da-capo-inventory/

Da Capo Inventory is a powerful software suite that has a growing list of functions that are available to teachers and directors alike. My vision in creating this software was to make teacher's lives easier as they complete some of their daily 'office-based' tasks and try to keep track of their vast inventory of musical instruments. To that end, school district administrators can appreciate the benefits of the program as it helps teachers to maintain accurate records [Charlotte Danielson 4B: Professional Responsibilities – Maintaining Accurate Records] in their program.

See DaCapoInventory.com for more information!

Tier One Functions

- Upload Students *(This is often taken care of by the district administrator)*
- Mark students as part of a 'Band' or 'Orchestra' course (Program Enrollment)

- Upload Instrument Inventory
- Assign Rentals
- Print Rental Contracts

Tier Two Functions

- Sending and managing repairs
- Collecting rental payments and printing receipts
- Library Upload and Management
- Searching districtwide library
- Student Grouping and Family Emails
- Emailing rental contracts
- Printing instrument barcode labels
- Address inventory errors (duplicate serial numbers, missing serial numbers)

Tier Three Functions

- Student Progress Evaluations *(If enabled by the district administrator)*
- Recording of state evaluations (NYSSMA), Local honor ensemble nominations
- Transferring instruments or library items to different buildings
- Locker Assignments
- Fundraising
- Trip Setup
- Rotating Lesson Schedules, Lesson tracking, Student QR Code Lesson Logs
- Daily 6pm emails to students and families: "Your lesson is tomorrow!"
- Alumni follow-up
- Uploaded PDF NYSSMA sheets can be **automatically** saved to a student's record, Renamed to "2022 Patrick Hait Trumpet 6 99.png" and can be downloaded for archiving

Possibilities for future development:

- School Store with Credit Card functionality
